

Party Favor Cone Box

Instructions

ladybehindtheparty

Supplies:

- good scissors
- perforating tool (optional)
- low temp glue gun and glue sticks

Instructions

- cut around all solid lines
- use perforating tool or fold on all dotted lines
- fold perforated sides until the side with the flap reaches the other side, making sure the patterned side is out
- glue flap to the outside of the opposite side.
- fold all sections of the top
- with the back (the glued flap) facing you, fold the straight piece on the right to lay flat on the top, weave the curved side (the one in front of you) and lock the cut portion into the straight portion
- repeat on the other side
