

1. Bend all the perforated sections.
2. Fold in the bottom (see below)
3. This flap is taped or glued to the outside.

Tip: For a stronger hold use a low temperature glue gun and hot glue flap D

C. This flap slides through to the bottom

A. This flap goes first

B. These flaps next... on top of the first flap.

- Supplies:
- scissors
 - folding tool
 - low temp glue gun
