How to Make the Slice of Cake Treat Box

by Lady Behind the Curtain

**NOTE: This box is
not supposed to
hold a slice of cake**

Optional Topper Idea:

Cut a birthday cake candle in half, use the cut portion to melt into a puddle, while the wax is still hot press the cut portion of the candle with the wick into the melted wax. Hold until wax has cooled. CUTE!

Supplies

- card stock paper
- scissors
- perforation tool or folding tool
- glue gun and glue sticks (I prefer low a temperature gun)

Instructions

1. Print pattern on a piece of card stock paper
2. Cut around solid lines
3. Make perforations along dotted lines or use folding tool and fold on all dotted lines

Cake box measures
about 4 inches long
x 3¾ inches wide at
the widest point x 2
inches tall.
